Infrastructure

Don't forget our neighbours

HSE update January 2017

- They expect research organisations and higher education establishments to manage H & S properly including the University of Cambridge
- A continued *light touch approach* from the Inspectors
- Robert Meardon our Inspector since 2010 has retired & the HSE won't commit to providing speakers for our updates
- The *friendly chat* approach abandoned

HSE update continued

- HSE putting THEIR efforts into workplace health related risks
- Cancers
- Asthma
- R S I
- Sensitizers

Opportunities

- Science Festival
- Festival of Ideas
- Twilight in the museums
- Outreach programmes
- E-luminate
- Darwin Lectures, public engagement
- Open days

We can successfully rise to these challenges

- By working together effectively
- Developing and maintaining good communication
- Using a common sense risk based approach
- Using the people and resources we have to the best of everyone's ability
